Parents and carers rightly think highly of Holme Junior and Infant School

- Are you looking for something quite different and rather special for your child? Please arrange a visit.

- We cater for up to 42 pupils, in a rural idyllic location in the midst of the beautiful Pennine hills, just over two miles out from Holmfirth and four miles from Meltham.

- Both classes have no more than 24 children and each has a teacher and classroom support assistant, meaning very high levels of support. With such small numbers, opportunities abound for every child. Our rural setting provides an outdoor environment that we use to maximum effect to enhance learning.

- We have a lovely and caring ethos, which is just like that of a large family.

A parental quote made to ofsted is testament to their positive views of the school:

“This is a brilliant school, staff go the extra mile, children thrive academically and personally.”
